'Flat Life'.

L.I: To use clues to make inferences about characters.

Open up the document called 'Flat Life Characters' and you will see that they each have a name. Now sit back and enjoy watching the clip:

<https://www.bing.com/videos/search?q=flat+life&&view=detail&mid=0C3BAB91ECF4746DF010C3BABB91ECF4746DF01&rvsmid=34ACD967E281F76E82AD34ACD967E281F76E82AD&FORM=VDRVRV>

Today you are going to be detectives and find clues to what you think the characters in Flat Life might be like .This is called making inferences. You will need to think about what you learn about the characters using the evidence from the video clip.

Take a look at the **attached document called 'Barbara Example'** to see an example of what to do and then complete this for the other 3 characters.

See attached.

Aim to add 4-5 adjectives and pieces of evidence for each character.

SC: I can write descriptive words and phrases about each of the 3 characters.

I can use inference to find clues about the different character's personalities

I can include between 4-5 adjectives.
