

Learn and Explore Activities

Some of you may wish to spend more time learning at home. So, we have written a menu of optional additional activities that you may wish to do. You could choose to do none, one or all of these activities during the half term. If you do an activity we would like you to email in a photograph or scanned image of your activity.

Here is your menu of learn and explore activities this half term:

1. Create a poster all about your favourite dinosaur
2. Make a board game that includes dinosaurs
3. Create a word search that includes words about fossils, rocks and soils
4. Make some dinosaur shaped biscuits – remember to weigh the ingredients out carefully
5. Ask your friends and families what their favourite dinosaur is and record your results on a pictograph
6. Make a 3D model of a dinosaur
7. Take your parents to visit the Natural History Museum in London or the Jurassic coast in Dorset
8. Write a story about a lost dinosaur
9. Make a set of Top Trumps about dinosaurs to play with your family and friends
10. Make a dinosaur 'dot to dot' for your friends to complete
11. Create a poster to show how fossils are formed
