

## Year 6 Home Learning – Thursday 12<sup>th</sup> November

Week 2 (Autumn Term 2)

### This week's activities are:

#### Spelling:

Please log in to Spellzone to find a task on Bronze Spellings set 6, Silver set 4 and Gold set 1. We will be having a spelling test next week on words from Bronze sets 1-6, Silver sets 1-4 and Gold set 1, so if you'd like to do more practice feel free!

#### Science:

This half term we are learning about the Earth and Space. So far we have discussed the solar system, and the way it is organised in space.

We would like you to do some further specific research into a planet of your choice and make an information poster on it. You might choose information about its statistics (size, length of year, temperature etc), but please also include some about the human history behind the planet (do we know who discovered it? When? What/who is the planet named after and why?). There's so much information out there so include as many fun facts as you can – and don't forget to make it look amazing!

Please bring it into school on Tuesday so it can be stuck into your Science books.

#### Maths:

Please log on to MyMaths and complete “percentages of amounts”, recapping what we have been practising in class this week.

#### Reading:

Please read for at least 15 minutes a day (aloud to an adult if possible, but to yourself is fine) and record it in your reading record.

Have a good weekend,

Mr Munro, Mrs Skingle & Mrs Carleton (and the rest of the year 6 team!)
