

LI: To plan and construct an effective WWII style shelter.

What materials do you have available for your bomb shelter?

1. _____
2. _____
3. _____
4. _____
5. _____
6. _____

What does your design look like?

Side view.

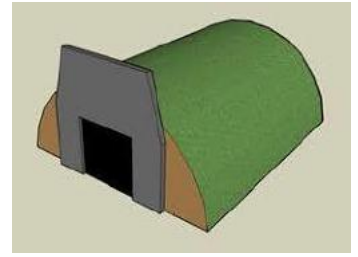

Inside view.

3D View.

**Are you pleased
with your design?**

LI: To evaluate the effectiveness of my design according to set criteria.

Time to test and evaluate your WWII shelter.

How much weight did your shelter take before collapsing?

How could you have improved your design?

How else could we have tested our designs?
